

COVID-19 Team Member Accommodations

Duke Health is committed to encouraging our team member resiliency, especially during this difficult time. To support our team, we will offer hotel accommodations for direct caregivers of patients with COVID-19 in hospitals.

This allows our team members working modified schedules and increased hours in COVID-19 positive units to remain close to their hospital and minimize their commute. Deeply discounted rates will also be available to all Duke Health team members. View the Durham and Wake County hotel partners below.
